Notice of a Draft Air Prevention of Significant Deterioration (PSD) Construction Permit and Title V Permit

PUBLIC NOTICE #17-023-PSD-R-TVAA

COMMENT PERIOD: Public Notice will begin on **May 16, 2017** and will end at close of business, which is 5:00 p.m. on **June 14, 2017**

Georgia-Pacific Clarendon LLC (GP-Clarendon)
8250 Sumter Highway
Alcolu, South Carolina
(Clarendon)

AIR PERMIT # 0680-0046-CB-R2 and TV-0680-0046

GP Clarendon LLC has applied to the SC DHEC, BAQ, for a Prevention of Significant Deterioration (PSD) air construction permit to revise construction permit CB-R1. This construction permit is being revised to correct emission calculations submitted by the applicant at its existing facility. A draft construction permit, a draft Title V operating permit and corresponding Statements of Basis have been written by the BAQ outlining this proposed project and applicable regulations. In addition to other state and federal air quality regulations, the draft permit is subject to review under SC DHEC Regulation 61-62.5, Standard No. 7 "(PSD)." This regulation is equivalent to Title 40 of the Code of Federal Regulations, Part 52.21 "PSD of Air Quality." Under these regulations, a facility must demonstrate that it will not significantly deteriorate the air quality in its region prior to constructing or modifying sources of air pollutants. The draft permits have not yet been approved and are open to comment from the public, affected states, and the United States Environmental Protection Agency (EPA).

GP-Clarendon operates an oriented strand board (OSB) manufacturing facility. The emissions originally calculated in permit CB-R1 were based on mechanical output rather than fuel input which will be corrected with this revision. There are no physical changes to the units at the facility. As a result of the emission recalculations the Particulate Matter (PM), Particulate Matter less than 10 microns in diameter (PM10), Particulate Matter less than 2.5 microns in diameter (PM2.5), Carbon Monoxide (CO), and Volatile Organic Compounds (VOC) are increasing; however, will remain within their federally enforceable limits. The Sulfur Dioxide (SO2) emissions will decrease due to this correction.

This revised construction permit will be incorporated as an administrative amendment into a new Title V operating permit with no additional public comment period, provided all public participation and EPA requirements were fulfilled with the notice of the construction permit action. The status regarding EPA's review of the proposed permit and the deadline for a citizen petition is available on EPA's website at: http://www.epa.gov/region4/air/permits/proposed_index.htm. All emissions limitations and conditions in the draft PSD construction permit have been written in accordance with the SC Title V Operating Permit Program.

Interested persons may review the materials drafted and maintained by DHEC for this facility and submit written comments on the draft permit by the end of the public notice period listed above, to Ruthie Hall at the above DHEC address or by e-mail at hallmr@dhec.sc.gov. All comments received by the end of the notice period, will be considered when making a decision to approve, disapprove, or modify the draft permit. Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional comments. Public hearing requests should be made in writing to Ruthie Hall at the above DHEC address or by e-mail. If a public hearing is requested and scheduled, notice will be given thirty (30) days in advance. If you have questions concerning the draft permit, please contact James Myers at the phone number listed above. A final review request may be filed after a permit decision has been made. Information regarding final review procedures is available from DHEC's legal office at the above address or by

calling (803) 898-3350. Information relative to the draft permit will be made available for review through the end of the notice period listed above, at the DHEC Columbia Office listed above and at the following location:

SC DHEC, Sumter BEHS Office, 105 Magnolia Street, Sumter, SC 2915

Information on permit decisions and hearing procedures is available by contacting DHEC at either address listed above. Copies of a draft permit or other related documents may be requested in writing to the Freedom of Information Office; fees may apply. Please bring this notice to the attention of persons you know will be interested in this matter.

This public notice, along with the draft permit and statement of basis, may be viewed through the end of the notice period on DHEC's website at: <http://www.scdhec.gov/PublicNotices/>.
